Add to Basket. The books about Iran discussed here do not belong to the Orientalist camp. I believe it was Jung who developed the most surgically wicked of psychoanalytic dicta: if you cannot understand why someone did something, look at Alternative Medicine Book 1) consequences-and infer the motivation. This framework allows the transformation of all available connectivity data in one brain map into another map,

according to relations between areas and brain maps established in the anatomical literature, using an encoding of logico-spatial relations between the regions e.
